Destination Bihar Expo 2013 begins in city

TIMES NEWS NETWORK

Patna: CM Nitish Kumar inaugurated Destination Bihar Expo 2013 here on Tuesday. Organized under the aegis of Bihar Industries Association (BIA), it has around 90 stalls put up by different enterprises. Its theme is 'Showcasing Bihar'. The government would have to in-

the existing industries have the potential to grow, but "the need of the hour is more private investment from investors outside Bihar and more employment generating schemes", which can take place only with special category status to Bihar. He said if special category status is granted, the state government would have to in-

chayat' would be organized. Deputy CM Sushil Kumar Modi, who was the chief guest, stressed the role of banks in the growth of industrial sector. "In the year 2011-2012, for small and medium scale industries in the state, Rs 2108 crore was given as loan, which rose to Rs 3172 crore by the end of December 2012," he said. At the expo, live demon-

आईटी को उद्योग का दर्जा दिया जायेगा

सीएम ने किया इफोकोम कंपनियों का आह्वान कहा- उद्योगियों के लिए पॉलिसेरी शीप

आह्वान (आह्वान) का जवाब देते हुए सीएम ने कहा कि आईटी को उद्योग का दर्जा दिया जायेगा। उन्होंने कहा कि उद्योगियों के लिए पॉलिसेरी शीप तैयार की जायेगी।

my view

498

do you see the IT scene in Bihar? I have seen the transformation in the last decade. It is evolving and cannot remain static. While India has leaped from agriculture to IT services industry, Bihar is still in the process of work needs to be done in the infrastructure and manufacturing side, which is essential for large scale employment and creation of jobs. Bihar is not as developed as other states. It is a developing state. It is a developing state. It is a developing state.

Bihar can reap demographic dividend

PK SINHA PK Sinha is part of the ICT Cell Committee set up by state government for IT Development in the state, chairman of ICT sub-committee, Bihar Industries Association and vice chairman, CII, Bihar State Council. He is working closely with NESBUD - National Institute of Entrepreneurship and Small Business Development.

datary to digitise government functioning as well.

You have returned from US after a month long participation in SARRC project? What was it all about?

It was a sub regional project on cross border entrepreneurship and I represented technology and entrepreneurship from India in a 15 member delegation of India, Pakistan and Afghanistan. China is finding as a manufacturing hub and it is opportune moment for India to set up bilateral exchange platform to understand global scenario and reap demographic dividend.

What was the objective? It was a mission to improve bilateral relationship for economic growth besides knowledge exchanges in mutual interest. SARRC nations of India has to be the lead

partner and the US wants to understand the areas of our concerns and weakness and looks to invest in sectors like energy, infrastructure, ICT, health and education.

What can Bihar do for faster growth?

Incubation and Innovation with fund support models with concept of enterprise villages must be implemented for transformation and inclusive development in Bihar. Bihar's opportunity comes from being uniquely young. Such a demographic situation generally brings a surge in economic growth as young people enter the workforce. Bihar has to be the lead

How can entrepreneurs reap small business growth in Bihar? We need to change mindset about business entrepreneurship as and try to catch them under university program. We also need to initiate appropriate financial support and skill development. We must promote units with service oriented industry.

Bihar govt and Astric Computers sign MoU for Capacity Building of govt staff

NEW NEWS BUREAU Patna, July 10

The Government of Bihar and Astric Computers Limited signed a Memorandum of Understanding (MoU) for capacity building of government staff. The MoU aims to provide training and skill development to government employees through various programs and courses.

Prabhat Kumar Sinha, Chief Executive Officer and Managing Director, Astric Computers (I) said, "Astric has been present in Bihar since 1992 and since then it has been the hub of our global learning and development efforts that we have been able to bring in and incubate big players who have better

turnover than us but no facility was available in Patna. The TCS ION (Case) has set up a new benchmark for Astric towards generating corporate culture and learning for us and it is just because of this iconic facility of CoE we will produce world class professionals to meet the future needs of the IT industry from Bihar. We are grateful to the Bihar government officials and other stakeholders whose energy and commitment has helped make CoE project a reality today," he added.

The primary mission of the Training Centre Astric-GoE is to practice the concept of conducting need based training in various fields. The centre will provide training in various fields like IT, management, and skill development. The centre will also provide training in various fields like IT, management, and skill development.

JAS quarter election for Confederation of Indian IT Associations (CITA)

TANUJA JAISHREE, Bhubaneswar, July 10

The Confederation of Indian IT Associations (CITA) will be holding its elections tentatively in the period of August-September. A total of 15 committee members and one President will be elected through this process.

"We are planning to elect our President in the month of August or September. We have not decided on the date of elections yet," said N. Dhanuka, Honorary Secretary, CITA. A total of 15 members will be elected, including the President.

ITAO plans elections and dealer programs

TANUJA JAISHREE, Bhubaneswar, July 10

The Information Technology Association of Orissa (ITAO) will be holding its elections in September. The association has also planned to launch dealer programs to promote IT products and services in the state.

"The selection process of the President will be done in September. If those choosing their office, I will continue in office," said Arun Kumar Das, President, ITAO. Many of the state-level IT associations have already elected new presidents while some of them will be choosing their new president as they complete their tenure in office.

IT super store to expand operation in Bihar

THE NEW NEWS BUREAU Patna, July 10

Bihar's first multi-branded IT super store has launched special promotional schemes and offers on its first anniversary. The store, located in Patna, has a wide range of IT products and services available at competitive prices.

Each remote store in the chain would be linked to the main store here with video conferencing, broadband and ISDN links to enable consumers have a look at the range of products available at the main centre. Sinha said the e-mail
